EXPERIENCE

Bank of England

Research Economist

Tasks: Researcher (hired via the PhD research programme) in the Structural Economics Division (SED) within the Monetary Analysis directorate. PhD intern between September 2020 and December 2020.

London, UK

September 2020 – December 2020, November 2021 – present

Austrian Central Bank (OeNB)

Research Consultant

Tasks: As part of KLERS I actively gave a talk to explain the techniques and results from my research at the university of Oxford. Further I am working with Dr Christian Beer and Walter Waschiczek on an analysis of the impacts of monetary policy on the debt level and debt financing cost of Austrian companies using a novel firm microdataset. (The Austrian SABINA database matched with OeNB data)

Vienna, Austria

August 2019 – October 2019

London School of Economics, Centre for Economic Performance

Research Assistant

Tasks: Developed a search model together with Isabelle Roland and Yukiko Saito to study the impact of loan severance costs on credit misallocation in Japan, and the effects this misallocation has on productivity and firm growth. In the second stage of the project, I went to Tokyo, Waseda University in November and December 2019 to estimate the model using a government lender-borrower database detailing financial relations between firms and banks in Japan (TSR database). Isabelle was granted funding for this project from the LSE CEP and the British Academy.

London, United Kingdom

February 2019 – September 2019

University of Oxford

College Lecturer / Seminar Leader / GTA

Tasks: I am teaching first and second year macroeconomics to undergraduate students at Jesus College. I also worked as a Seminar leader for a course in policy evaluation at the Blavatnik School of Government in 18/19. I have also been a teaching assistant for the summer schools Computational Macroeconomics (The Essentials and Advanced Tools) and Continuous-Time Methods in Macroeconomics with Applications to Machine Learning.

Oxford, United Kingdom

September 2018 – Present

Johns Hopkins University

Senior Teaching Assistant

Bologna, Italy and Washington, DC

September 2013 – May 2015, August 2018 – September 2018

Tasks: Most recently I taught preterm microeconomics at SAIS Bologna. In the years before I worked as research and teaching assistant for corporate finance, financial risk and derivatives, and international monetary theory. I also assisted the research of Jon Hoddenbagh on exchange rate forecast reliability. I also conducted research for Dan Hamilton at the center of transatlantic relations (CTR). I modelled transatlantic investment and job creation. A report based on a database I created can be found here: Transatlantic economy 2016.

Aurora Energy Research

Analyst

Oxford, United Kingdom

April 2016 – June 2016

Tasks: Consulted British clients on investments in the British Energy market based on CGE-model forecasts of global and British energy markets

European Commission

Blue Book Trainee

Brussels, Belgium

October 2015 – February 2016

Tasks: I worked in the Cabinet of President Juncker and assisted the President's advisers. I worked with the President's economic and social policy adviser Luc Tholoniati on fiscal policy, labour and social policy, economic governance, and the European Semester. I also worked on the follow up to the five Presidents' report, financial integration, and migration and the Schengen area.

Bank of Slovenia (Central Bank of Slovenia)

Research Assistant - Macroeconomic Research Department

Ljubljana, Slovenia

June 2014 – August 2014

Tasks: I worked in the macroeconomic research department on a project of the Wage Dynamics Network of the Eurosystem (WDN). The WDN is a research network that studies monetary policy in relation to European labour markets. I analysed and interpreted WDN Survey 2014 for Slovenia using Stata and Excel followed by a report of the interpretation of the results published in the research papers of the bank. The survey results were published in the bank's working papers found here: Results of the 2014 wage dynamics survey in Slovenia.

University of Vienna

Research Assistant at the Institute for Labour and Social Law

Vienna, Austria

October 2011 – June 2012

Tasks: Conducted research for legal opinions as well as taught a class of 50 Students in labour and social law.

Federal Chancellery of Austria

Intern - E-Government

Vienna, Austria

August 2011 – September 2011

Tasks: E-government department - Worked on the creation of a platform to facilitate the exchange of information between business entities and the government

Alternative Military Service

Zivildienner

Vienna, Austria

September 2008 – May 2009

Tasks: Worked as "Zivildienner" at the NPO "Volkshilfe Vienna" assisting with the organisation of aid transports (medication, clothes, and food) to projects in Romania and Moldavia as well as on administrative tasks.

LANGUAGES, SKILLS AND INTERESTS

Languages: German (Native); English (Fluent); French (Good); Modern Greek (Intermediate)

Programming Languages: Matlab, R, Julia, Python, LaTeX **Programmable Software:** MS Office, OxMetrics, Stata

Interests: Science and Mathematics: Studied Physics at the University of Vienna (Classes in calculus, linear algebra, analysis, numeric programming) Participated at CERN Masterclasses (2007), Summer School for gifted students in Mathematical Optimisation (2007), and the Chemistry Olympiad (2008) during High School.
